

ADVESARIO

WE GO BEYOND COMPLIANCE &
TECHNOLOGY TRANSFORMATION

WHO WE ARE

We are a boutique **consultancy** offering specialized services in:

- Governance, Risk, Compliance (GRC)
- Privacy Engineering & Data Protection
- AI Strategy & Risk Management
- Digital and Organizational Transformation
- Technology Leadership
- Building Intelligence-Led Cyberdefense
- Compliance & Technology SWAT teams

With a strong foundation in both **governance** and **technology**, we help organizations introduce, navigate, and operate critical **frameworks** such as ISO 27001 and SOC 2—*turning compliance into a true business enabler.*

We bring technology & **organizational leadership** experience across **risk** management, **cybersecurity**, and **software** delivery, combined with a hands-on mindset. *This allows us to **guide our clients** through regulatory complexity, and organizational change with confidence.*

DELIVERY HIGHLIGHTS

Use-cases & examples

- E2E **implementation** and **operation** of frameworks, like *ISO 27001, SOC2*.
- Advisory for **certification** readiness: *EU CRA, DORA, NIS 2, EU AI Act, GDPR*.
- Translating regulatory requirements into **technology implementations** (E.g.: *GDPR*).
- Acting as *Information Security Officer*, leading GRC support and enabling **automation**.
- Assessing **AI readiness** (*EU AI Act*) and creating AI policies, so you'll become "AI safe".

Professional domains & solutions

- Our multidisciplinary **"SWAT"** teams deliver cross-functional **technology programs** spanning **multiple domains** (E.g. legal, security, infra, architecture, penetration testing).
- Evolving your **Agile** delivery methodologies, Secure(SDLC), Dev(Sec)Ops pipeline, tailored to your teams' **real-world** needs.
- Strategic **leadership** and hands-on support for complex **transformation** programs

WHY US

- *Boutique approach:* **senior** experts & **tailor-made** services in every engagement.
- **15+ years hands-on** and leadership experience with startups & enterprises.
- Pragmatic, audit-ready solutions with minimal overhead bringing **flexibility** and **cost-effectiveness**.
- Proven track record at various scales, like IBM, Citi, Ustream, Bitrise, Nevis, Colossyan etc.

We bring **targeted knowledge** in technology, security, and compliance—exactly when and where it's needed, **super-flexible**. This makes us not only more agile, but also more **cost-effective**—especially for high-impact, time-sensitive initiatives. Compared to fixed-term hires, we offer greater flexibility, instant onboarding, and better adaptability to your project's scope, timeframe and pace.

GET IN TOUCH

We'll walk you through our services and help you find the right path forward—tailored to your goals and challenges. No pressure, just a conversation to see how we can support your success. Your first hour of consultation is on us—designed to explore your needs and potential solutions, helping make your business more secure and effective.
